PLUG & PLAY FUNCTIONALITY

Designed for ease of use & simplistic integration into your business. No professional setup is required, no calibration needed.

FEATURES

- Install as a wall a mounted device, on our podium, counter top mount, or easily integrate into a turnstile/gate or tabletop using the post mount.

- Temperature is taken almost instantly, with or without an audible alarm for over temp, or a simple LED notification.

- Integrate with time clocks or place near employee entrances to protect personnel.

PODIUM

FAIL

EMMA JONES
100.4°F (38°C)

COUNTER TOP

POST / WALL MOUNT

- Optional facial recognition in less than one second.
- Ability to store up to 30,000 faces.
- Automatic notification of abnormal body temperature.
- Temperature measurement data exported in real time.
- Infared thermal imaging for face-with-mask identity.
