

# Sanitizing & Disinfectant Service

PROTECT YOUR EMPLOYEES, CUSTOMERS & BUSINESS.

Our preventative sanitization service utilizes eco-friendly, organic certified ingredients to produce an environmentally-responsible and sustainable broad-spectrum disinfectant.

99 %

of bacteria, enveloped viruses  
fungi & mold's are killed

100 %

EPA registered disinfectant to fight  
against enveloped viruses

1 min<sup>\*</sup>

1 Minute Kill Time

30 days<sup>\*\*</sup>

Extend Protection against harmful  
bacteria, mold, mildew and odors.

## THREE SIMPLE STEPS TO ON-SITE SANITIZATION

Our nationwide fleet of technicians are ready to sanitize and disinfect your premises with our laboratory tested and EPA approved sanitizers. Our all-purpose sanitizer work in synergy to ensure efficient killing of a wide range of microbial species.

**1**  \*

Service 1 - Spray

Our operators will treat your site with a fine level mist of our Sanitizing solution. The solution has a quick contact time also known as "kill time"

**2**  \*\*

Service 2 - Spray

Our operators can then treat your site with our extended protection mist which adheres to surfaces for up to 30 days

**3** 

YOU'RE PROTECTED

The solutions are colorless and odorless allowing your business to operate as normal. We will leave behind a sheet with the date of visit, area cleaned and our contact details.

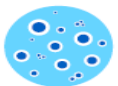

Bacteria: **DISINFECTANT** / Staphylococcus aureus, E. Coli, MRSA, Listeria

Virus: **DISINFECTANT** / Adenovirus, HBV, HIV-1, Norovirus, Coronavirus \*

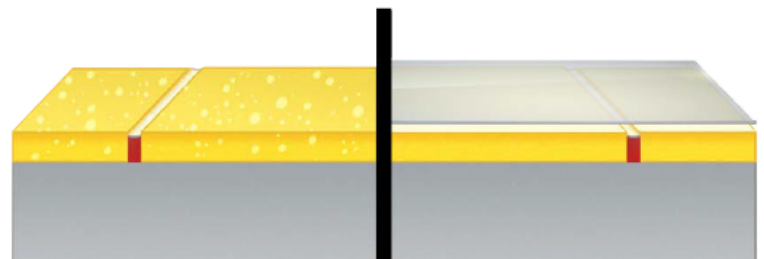

Mold/ Mildew: **MOLD PREVENTER** / Aspergillus Niger, Aspergillus Fumigatus

Odor: **ODOR ELIMINATOR** / All odor causing bacteria/ microbes

Molecularly bonds to a treated surface, thus making the entire material itself antimicrobial. \*\*
