

"TOGETHER WE ARE STRONGER"

"WORKING TOGETHER TO HELP BUSINESSES GET BACK TO BUSINESS"

Legacy Service Solutions LLC is committed to fighting the spread of harmful bacteria, virus, and microbes.

- ◆ Our process includes sterilization, and technology that adheres to a surface creating a molecular bond with the surface/item to which it is applied (including textiles). Effectively protecting the surface for at least **3 months** even when continued normal cleaning takes place. When applied correctly, the antimicrobial protection does not allow harmful bacteria to thrive on the surface by piercing the cell wall of virus/bacteria.

- ◆ Our product and application process are non-toxic, environmentally friendly, **FDA approved, and EPA certified** as an antimicrobial. Safe for kitchens, dining rooms, restrooms, & all other surface areas.
- ◆ Legacy Service Solutions LLC has the products, systems, and services to help your organization mitigate the spread of harmful virus & bacteria.
